

Introduction to Formal Logic
Thomas Brommage
PHI 2101 001
Fall 2004

<p>Good instructor, but could be a little more clear in some instruction of proofs. Very considerate and helpful to students. Great sense of humor!</p>
<p>Tom was an awesome teacher. I enjoyed having this class. It was a tough course but due to Tom helping me, I understood better.</p>
<p>Not very goods at describing goals. Went entirely too quickly when explaining ideas. Very nice and shows concern for students. Gets side-tracked too easily.</p>
<p>Overall, this class was excellent. However, the book was a bit confusing and made things harder to understand at times. Tom's teaching was good-sometimes unclear but good overall.</p>
<p>While Tom was very enthusiastic, his gasp on the material seemed slightly limited. He could improve by explaining problems to the class instead of simply working them out on the board and expecting us to follow along. Furthermore, I think that the material was too difficult for the course level. I would like to add. However, that I love his shirts!</p>
<p>Mr. Brommage did an excellent job with organization and pace for the course. He was concealed with how well we were doing and was available during and after class. He had a great rapport with students and was very enthusiastic. Great job! Thank you Mr. Brommage!</p>
<p>Mr. Brommage was an excellent instructor. More instructors should be as helpful and interested in the facilitation of students learning. He is a valuable asset to his department and this University.</p>
<p>Although he is a nice guy, he is the most confusing professor I have ever had and I honestly do not think he should be teaching. Most of the class has no clue what he's talking about.</p>
<p>Tom's a great teacher! He made me understand a subject. I failed the semester before. Thanks for all your help!</p>
<p>Tom Brommage is an excellent professor. He knows what he is doing he provides assistance in and out of the classroom for every student.</p>
<p>Why is this 200 level course? It should be at least 3500.</p>
<p>Very helpful and smart. Never understood the info until this class. Great teacher.</p>
<p>Tom is a very knowledgeable and helpful teacher. I really enjoyed this class. This class was a good introduction to logic.</p>
<p>Professor Tom is an excellent mentor to his students. He is helpful and insightful; Above all else he is really available to all his students for aid.</p>
<p>A model instructor!</p>
<p>Tom was very good and fun to listen to!</p>
<p>Being the 2nd time I'm taking this course, Tom has been excellent. Helpful, even on weekends and with email.</p>
<p>He makes sure we learn it all completely and I appreciate his attitude on our personal improvement. Great class.</p>
<p>Great personality. I liked your form of teaching. You also were very great with helping when it was needed.</p>
